

Bluetooth Headset Guide

Be sure to read your headset user guide and confirm your headset's Bluetooth password (Bluetooth passkey) before performing any operations.

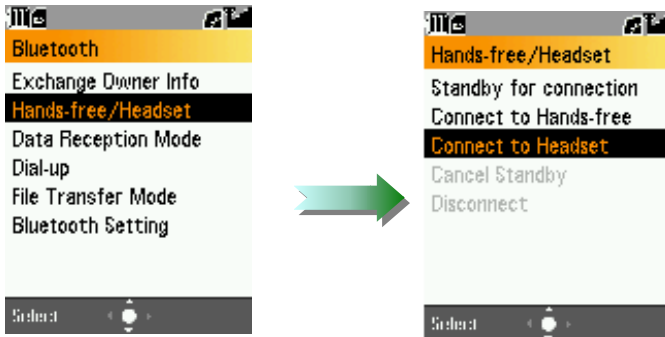

We recommend you to first register the headset you want to use on your S750 so that the connection (searching operation) becomes simpler and eliminates the need for password authentication later on.

Registering a Bluetooth headset on your S750

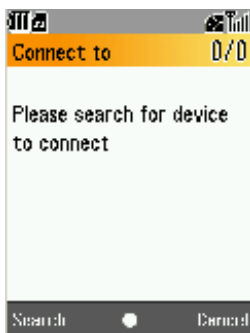

1. Activate the reception mode on the headset to start connection.

Note : Read the headset user guide to activate the reception mode.

2. On your S750, press the right soft key [Menu] → **Settings** → **Connectivity** → **Bluetooth** → **Hands-free/Headset**

3. Select **Connect to Headset** and press OK.
4. Press the left softkey [Search].

- When the headset is searched, the connection list appears on your S750.

5. Select the headset you want to use in the list and press **[Options]** → **Add to Connection List** → **[Yes]**

- Select one device of the list.
6. Enter the Bluetooth password (passkey). The passkey should be indicated in the headset user guide.

To use the headset for making or receiving a call, you need to establish a connection. Before proceeding to “Using the Bluetooth headset” please read the following on how to connect the S750 to your headset.

Connecting your S750 to the headset

There is more than one way to establish connection. Depending on your headset model you may need to first register the device to the connection list before proceeding. (See previous page). Refer to your headset user guide for further details regarding connection list registration, reception mode, and connection activation and other operations.

(A) Connecting from the S750 to the headset

1. Activate the reception mode on the headset to start connection.
2. On your S750, press the right soft key **[Menu] → Settings → Connectivity → Bluetooth → Hands-free/Headset → Connect to Headset**
3. If your headset is already in the connection list, select it from the list and press OK. Otherwise, Press the left soft key **[Search]**, select your headset and press OK to connect.

(B) Connecting from the headset to the S750

1. Activate standby for connection on your S750.
 - On your S750, press the right soft key **[Menu] → Settings → Connectivity → Bluetooth → Hands-free/Headset → Standby for Connection**
2. When you see the  icon on your S750, turn the headset on and activate the connection. Enter the Bluetooth password (passkey) when prompted. Read your headsets user guide on how to activate the connection.

Note : If you have gone out of range and the connection is lost, you can reactivate the connection again by first confirming the  icon on your S750 and then re-activating the connection from the headset.

C) If no headset is registered before

It is possible to connect your S750 to the headset without registering the headset to the Connection List.

1. Activate the reception mode of the headset to start connection.
2. On your S750, press the right soft key **[Menu] → Settings → Connectivity → Bluetooth → Hands-free/Headset → Connect to Headset**
3. Press the left softkey **[Search]**.
4. Select the headset you want to use in the list and press OK.
5. Enter the Bluetooth password (passkey).

Using the Bluetooth headset

Making a call

1. Connect your S750 to the headset. (Refer to “Connecting your S750 to the headset.”)
2. Make a call using your S750.
3. Switch control of the phone to the headset after the other party answers.
 - On your S750, press the right soft key **[Options]** → **Connect to Bluetooth**

Receiving a call

1. Connect your S750 to the headset. (Refer to “Connecting your S750 to the headset.”)
2. Receive a call using your headset. Follow the headset user guide to receive a call.

Activating your Bluetooth headset after making or receiving a call

You can activate your headset during a call by connecting to your S750 from the headset. We recommend you to first register the headset you want to use on your S750. Your S750 is required to be in the standby for connection mode before making or receiving a call.

1. Put your S750 in the standby for connection mode.
 - On your S750, press the right soft key **[Menu]** → **Settings** → **Connectivity** → **Bluetooth** → **Hands-free/Headset** → **Standby for connection**

The  icon is displayed on the phone.

2. While the call is in progress, connect to the phone from the headset.

Note : The method of connecting from your headset to your phone may differ depending on the headset. Refer to your headset user guide for details.

3. Switch over from the phone to the headset.
 - On your S750, press the right soft key **[Options]** → **(Cancel Bluetooth** → press the right soft key **[Options]** → **Connect to Bluetooth**
